STATE NATIONAL HISTORY DAY

National History Day is a competition in which students in grades 6–12 choose a topic and dive deeply into the past by conducting extensive research in libraries, archives, and museums. They then present their conclusions and evidence through papers, exhibits, performances, documentaries, or websites, moving through a series of contest levels where they are evaluated by professional historians and educators. All four Marian students submitted papers.

Mr. Largey had been an integral part of the Math Department at Marian for 25 years and always made sure his students had the tools to succeed. The winner of the annual award is the top math student in the graduating class, and must reflect the same passion and understanding of mathematics as demonstrated by the honoree himself.

SISK SCIENCE SCHOLAR AWARD

Jennifer Godoy-Lopez

Dr. Doug Sisk retired in 2017 after 15 years of teaching. His wife, Dr. Hendrica Sisk, was a Marian alum of the class of 1970, and both of their daughters graduated from Marian. In gratitude, the Sisks decided to give back to Marian by endowing the "Sisk Science Scholar Award." The Sisk Science Scholar Award is given annually to a top science student who has demonstrated outstanding classroom effort and research potential, and who intends to pursue a science major in college.
